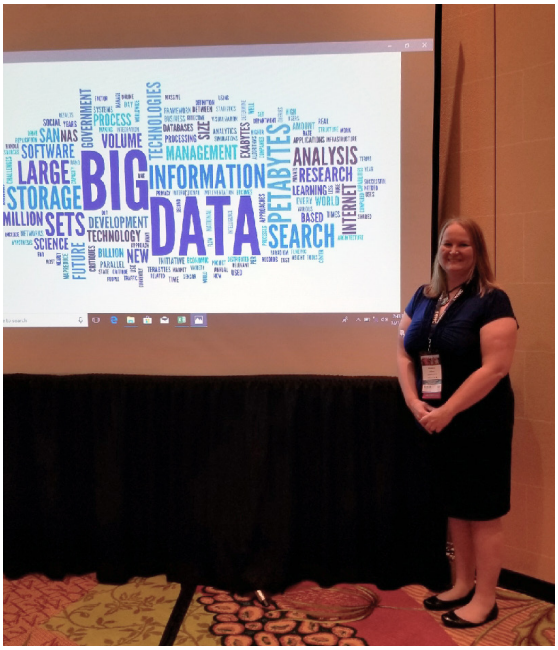
# SWWC Staff Present at AESA Annual Conference

Several SWWC staff presented at the Association of Educational Service Agencies (AESA) Annual Conference held November 30 - December 2, 2017, in San Antonio, Texas. The conference theme was 'From Hope to Change: Equity, Inclusion and Social Justice'.

## Collaborative CTE Programs for Small Rural Schools

SWWC's Lisa Gregoire, Tom Hoff and Gail Polejewski (pictured at right) shared information about a collaborative CTE model where clusters of high schools are pooling students to support the types of CTE courses they could not offer on their own. During the session, they discussed the process used to encourage schools to share resources and how classes were offered in ways that helped to overcome scheduling, financial, and distance barriers.



## Designing Dashboard to Drive Your Data Decisions

SWWC's Elizabeth Sullivan (at left) talked about how dashboards can give you an at-a-glance clear picture on a variety of data. Dashboards can be used to show key metrics in finance and human resources, display records in an assortment of different charts, and drill down complex information using filters and slicers -- all to help you better visualize your data to assist in the decision-making process.
