

Bruns Presents at National Conference

SWWC's Clinical Director of Behavioral Health Services, Amber Bruns, presented at the 44th Annual Association of Behavior Analysis International Conference held in San Diego in May. Over 5,000 people from around the world attended the conference.

Amber was a panelist for the session entitled "Varieties of Experience in Establishment of Behavior Analyst Licensure: Reports from States with Newly Established Licensure". The discussion focused on Michigan, South Dakota, Montana and Texas and included a comparison of experiences, strategies and tactics as well as recommendations for states where licensure had not yet been established.
