

## Project SEARCH Receives United Way Grant

A HUGE thank you to the United Way of Southwest Minnesota for providing a grant to Project SEARCH for 2014-15. Project SEARCH is a transitional high school program for young adults (generally ages 18-21) who have a diagnosed disability, have met their academic graduation requirements, but would greatly benefit from attending one more year of high school to meet their transition goals and objectives. Students spend this entire last year of high school exclusively at a host business partner site (Avera Marshall), where they take part in 3 individual internship rotations, while also receiving several hours of daily work-based classroom instruction. The ultimate goal of Project SEARCH is to provide young adults with the skills and work experience that will support them to obtain and maintain gainful competitive community employment.
